

ClickBlocks\Web\POM\VCustom

General information

Inheritance	ClickBlocks\Web\POM\Validator
Subclasses	no
Interfaces	ArrayAccess
Source	Framework/web/pom/validators/custom.php

This validator checks whether the values of the validating controls matches the user defined conditions. Besides of the common validator attributes **VCompare** has the following additional attributes:

Attributes

Name	Type	Default value	Description
clientFunction	string	NULL	the name of JS function, that implements checking of the user conditions on the client side.
serverFunction	string	NULL	the delegate that implements checking of the user conditions on the server side.

Public non-static method

check()

```
public mixed check(mixed $value)
```

\$value	mixed	the value to validate.
----------------	-------	------------------------

Returns the same value that passed to the method.
