

ClickBlocks\Web\POM\VRequired

General information

Inheritance	ClickBlocks\Web\POM\Validator
Subclasses	no
Interfaces	ArrayAccess
Source	Framework/web/pom/validators/required.php

This validator checks whether the validating control has not empty value. Besides of the common validator attributes **VRequired** has the following additional attributes:

Attributes

Name	Type	Default value	Description
trim	boolean	FALSE	determines whether the checking value will be trimmed.

Public non-static method

check()

```
public boolean check(mixed $value)
```

\$value	mixed	the value to validate.
----------------	-------	------------------------

Returns TRUE if the given value is not empty and FALSE if it is empty. If the given value is not scalar, the method always returns TRUE.
