ClickBlocks\Web\POM\VCompare

General information

Inheritance	ClickBlocks\Web\POM\Validator
Subclasses	no
Interfaces	ArrayAccess
Source	Framework/web/pom/validators/compare.php

This validator checks whether the values of the validating controls are equal to each other. Besides of the common validator attributes **VCompare** has the following additional attributes:

Attributes

Name	Type	Default value	Description
caseInsensitive	boolean	FALSE	determines whether the case insensitive comparison is used.

Public non-static method

check()

```
public string check(mixed $value)
```

$value	mixed	the value to validate.

Returns the given value for comparison. If the given value is not scalar, the method throws exception.
